BEING IN THE HEART OF RAJA AMPAT PULAU PEF IS QUITE SIMPLY ONE OF THE MOST BEAUTIFUL ISLANDS IN THE ARCHIPELAGO. RAJA4DIVERS RESORT HAS BEEN CELEBRATED BY ALL THE SPECIALIZED DIVING JOURNALS IN THE WORLD...

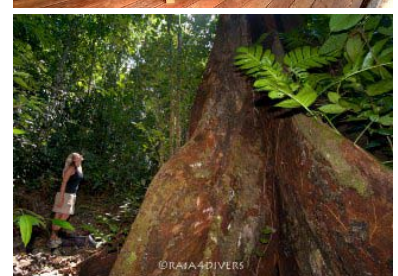

Raja 4 Divers Resort is located in one of the most beautiful island of Raja Ampat archipelago, Pef Island, or Pulau Pef like it is named by Papuan people and offers the world's richest reefs, many varied habitats and a myriad of spectacular dive-sites.

Dripping in lush virgin tropical jungle, the island is just waiting to be explored: spectacular bays, many smaller islets, blue lagoons, white sand beaches, hidden lakes, 'mushroom' outcrops, ancient rock art on karst cliffs, pristine blue-water mangroves, virgin jungle, and incredible variety of exotic birds, monitor lizards and cuscus. The island is surrounded by the world's richest reefs, many varied habitats and a myriad of spectacular dive sites: soft corals, spectacular hard coral gardens, slopes, critter sites and mantas, mantas, mantas...

Pulau Pef is a private island and it runs by their Swiss owners. The 128sqm bungalows have enough room for everything: 48sqm the bedroom, 24sqm the deck, and the open air bathroom 44sqm. Extremely spacious, light and airy, each bungalow is equipped with every comfort: mini fridge, water dispenser, writing desk, mini safe, large en-suite indoor/outdoor bathroom, hot and cold water, amenities, bath towels, swimming towels, and on the large deck: sun loungers, hammock and steps into the water.

The reefs of the Raja Ampat are specifically referred to as 'species factories', replenishing other reef ecosystems by sweeping coral larvae across the Indian and Pacific Oceans via their strong currents. In the general area surrounding Pulau Pef, it is possible to experience a myriad of dive sites, where you could encounter almost everything underwater - a staggering variety of habitats and experiences. This is not just another diving destination, it is the Holy Grail for scientists, topside and underwater photographers, novice and advanced divers alike - proven to be the richest reefs on the planet. In fact, Pulau Pef offers the possibility to experience a myriad of dive sites and amazing snorkeling locations, with a fascinating variety of habitats and underwater experiences. Maybe for that it is called the mini Raja Ampat.

Raja 4 Divers have been built by divers, thinking in divers and, of course, in their main interest: the underwater photography.
